

# Speaking Heart to Heart in Indonesia

## Gold International Diamond Barbara Wagner

In 2009, Gold International Diamond Barbara Wagner from California watched an inspiring program that featured a story about Singapore Airlines pilot Captain Budi Soehardi and his wife Peggy. They run an orphanage in Timor, Indonesia that supports 70 children. Barbara met with Captain Soehardi, talked to him about the mission of Foundation 4Life, and the immune system support that 4Life Transfer Factor® products provide. Barbara donated 4Life Transfer Factor products and visited the orphanage to play with the kids and provide support for staff members. Barbara is grateful that through 4Life, she can build a successful business and reach out to people in need.

*“This orphanage is a wonderful place for children whose parents have died or cannot take care of them,” Barbara commented. “I had a great time playing, singing, and getting to know the children better. Communication always works best when you’re speaking heart to heart.”*

*“This is a place full of love and dedication and Captain Budi and Peggy run the orphanage with a deep belief in God. It is a blessing to know people like Budi and*

*Peggy. They are wonderful people with beautiful hearts and they are great examples for all of us.”*
